“With drive and a bit of talent you can move mountains.”

Summary

Current Software Developer at start-up company Codepoint. 1+ years experience in Frontend development, using mainly React and Blazor, as well as backend development mostly using .NET Core. Gaming enthusiast and music lover. Interested in devising a better problem-solving method for challenging tasks and learning new technologies and tools if the need arises.

Work Experience

Codepoint.

SOFTWARE DEVELOPER

Braga, Portugal

Sept. 2021 - Present

- Worked closely with the design team to develop the frontend for client's solutions.
- Migrated existing, outdated apps to newer technology stacks, in ReactJS and .NET.
- Tested software for bugs and operating speed, fixing bugs on projects developed by the rest of the team.
- Worked on a SCRUM environment for better time and efficiency management.
- Worked well independently and within a team setting.

Education

IPCA(Instituto Politécnico do Cávado e Ave)

A.S. IN WEB DEVELOPMENT AND MULTIMEDIA

Famalicão, Portugal

Sept. 2020 - Sept. 2022
